PROJECTS

- **Clinical Evidence-Grounded RAG System** | *Python, Ollama (Phi-3), SentenceTransformers, PyTest, FAISS VectorDB*
Developed a hallucination-resistant Retrieval-Augmented Generation (RAG) system aligned with WHO clinical guidelines using a locally hosted FAISS vector database for semantic retrieval, achieving % **retrieval precision** and **reducing hallucinations by 40%** compared to a baseline LLM-only system. Integrated negation-aware bias detection and CI/CD regression testing to ensure safe and reliable clinical responses.
- **AI-Powered Financial Independence Chatbot** | *Python, LangChain, Gemini API, React.js*
Developed a conversational investment advisor for women using Gemini and LangChain, featuring dynamic tone-switching and a responsive React UI to simplify complex financial strategies.
- **Multi-Agent AI Research Assistant (Kaggle Hackathon Team Project)** | *Python, LangChain, Gemini API, Streamlit, FastAPI*
Orchestrated communication between retrieval, analysis, and report-generation subagents to automate the research workflow. Implemented research paper generation, content synthesis, and citation-grounding pipelines that transformed retrieved information into structured, academically formatted reports, improving the efficiency and consistency of literature review and technical research tasks.
- **Multi-Channel AI News Aggregator** | *Python, Hugging Face BART Model, APIs, PythonAnywhere*
Deployed an automated agent synthesizing news via a fine-tuned BART model (reducing reading time by 80%), delivering daily digests via WhatsApp and responsive HTML emails.
- **AI-Powered Content Summarization & Video Gen** | *React.js, Python (Flask), Node.js, NLP*
Created an entire stack text-to-video app with spaCy/HuggingFace to summarize and text-to-speech/audio to synthesize videos and audio and a user interface built with Figma and a stack consisting of Node.js and Python.

CERTIFICATIONS

Introduction to Django Web Frameworks	coursera.org	January 2025
Oracle Certified Foundations Associate for Oracle Cloud Infrastructure 2025 AI	oracle.com	October 2025
Javascript Algorithms and Data Structures	freeCodeCamp.org	November 2024
Python Programming For Everybody	coursera.org	November 2024
Introduction to Web Programming Using HTML and CSS	Udemy	November 2024

EXPERIENCE

Summer Intern | CollaMeta | *International Internship*

- Worked on an Android-based cognitive assessment application and developed interactive quiz and memory modules using Android Studio, Java, XML, and Firebase Realtime Database.
- Focused on improving accessibility, usability, and user experience for elderly users.
- Gained hands-on experience in real-world application development and collaborative workflows.

Junior Java Developer | BARC | *Government Internship* | May 25 – July 25

- Developed production-level enterprise applications using Java, Spring MVC, Hibernate, PostgreSQL, and Python.
- Enhanced Apex Project Monitoring with dashboards, KPIs, financial analysis, and graphical analytics.
- Performed server & database log analysis using Python to identify slow queries, bottlenecks, and anomalies.

VOLUNTEERING AND EXTRA-CURRICULAR

Association for Computing Machinery (ACM) - Pimpri Chinchwad University

January 2025 - July 2026

Design Team Member: Contributed to the design and branding of technical events, workshops, and seminars organized by the club.

Vibenity Hackathon – Pimpri Chinchwad University

November 2025

Technical Team Volunteer: Curated problem statements for participants according to then theme of hackathon Vibe Coding that ranged from Data Science statements to MERN stack statements.

Class Representative – Pimpri Chinchwad University

August 2025 - Present

SKILLS

Technical Skills

AI & GenAI: Python, LangChain, Gemini API, Ollama, Hugging Face(BART), Prompt Engineering, RAG Systems, SentenceTransformers, REST APIs

ML & Data: NumPy, Pandas, Scikit-learn, OpenCV, Mediapipe, Matplotlib, Seaborn, Plotly, Tableau, PowerBI

Web & Full-Stack: React.js, Node.js, Express.js, Django, Flask, HTML, CSS, MongoDB, MySQL, Leaflet.js

Dev Tools: Git, GitHub, Figma, PyTest, Firebase

Familiar with: LangGraph, ClaudeCode, Vector Databases (FAISS), Codex

Soft Skills: Problem-solving, collaboration, adaptability, attention to detail, communication, leadership

EDUCATION

Apeejay School, Kharghar

- Class XIIth CBSE Board - 91.2%
- Class Xth CBSE Board - 93.2%

Mumbai, Maharashtra
2022
2020

PCET'S Pimpri Chinchwad University

Bachelor of Technology in Computer Science Engineering

- Cumulative GPA: 9.08/10

Pune, Maharashtra
July 2023 - Present
